

The United States of America

Amend the Articles of the Association 1774

As Bailor and Representing The Republic States within The United States of America 1781 proper, within specifically established metes and bounds currently State nationalized, and of many delegated to Amend The Articles of the Association 1774, under the 1781 Perpetual Union of States, within The United States of America, Comes John Rowe PMA and Private Attorney General's Across America as Trustee, in hand and seal and under residency therein, states the following: Submitted before the National assembly is an compilation of recommendations made by survey as set forth and sponsored by the General Post Office:

The Articles of Association, October 20, 1774; as amended May 15th, 2017

This tendered, these The Articles of Association 1774 is of a bygone era; and hereby is amended, and is moved to be Internationally listed, therefore amending and delegating jurisdiction in National Law subject to other Treaty's and Associations whereby created.

The Articles of Association for the Union have long been applied for the purpose of perpetual war by the many sides and speculators of that era of time and between the Monarchs private companies and this Union. The point of view by and between both parties have remained within opposite spheres since the revolutionary war of 1776.

The Union refused to move towards peace and reconciliation by never amending these Articles of Association and having been placed on the shelf to collect dust while the perpetual war of various actions continue.

The Treaty of Paris of 1784 did not create peace with the King of England and the Union; It created peace by and between the King of England and its company while the Union remained under these Articles of Association of October 20th, 1774 never minding its status among the family of nations with war crimes played.

The Union and Associations give rise into a new timeline, new events under new horizons, thereby changed this past with guillotine and noose long placed at rest, now to look to the futures with technologies made of old, combined with new, of concepts to the now.

Therefore, these Articles of Association are hereby amended as follows for the purpose of embracing peace and reconciliation by and between the many sides and speculators of that era of time and between the Monarchs private companies and this Union; Therefore these amends are set forth:

Repealed is the Monarch explanation of then to be preserved in prosperity, and replaced is the current time line explanation for the now. Those issues that once was in the beginning of the Declaration and Association and after the 1783 treaty, has now in time formed a despotism effect on many people of these United States. The abandonment's of those 1st created for the things of Monarch's by Washington replaced one issue with another, is currently unresolved contributing to more, whereby not so different as once was, returns back to the originating time.

Applying knowledge of this measure, serves to honor those whom came before us, as was known by this Frenchman Claude Frederick Bastiat (1801-1850), his statement of their time to France ignored, gave disclosure of socialism as a fallacy, which continues to

degenerate into some form of communism and totalitarianism despotism leading to become intolerably oppressive, lawlessness, and anarchy, then to inevitable war. This current time is that America is a divided nation and divided political status has been corrupted, and thus to preserve a nation, this perpetual Union restores what was taken in prize, taken in crimes of war, restoring that as was redefined by socialism and totalitarianism despotism and the elite communist activities such as those in Europe applied to the America's. In this era of time, the real American's are those born within The United States of America, and those whom lawfully immigrate and vet their capacity by allegiance therein. Therefore today with the Law perverted, and the powers of state perverted with it, thus is upon these governments and this new Government to correct these errors, and establish the forum for the people, not just to insure their prosperity, but to continue in freedom in their Law, vacant of economic slavery.

Article XVI

CO-Governments, Cultures and America's Natives

As amended new herein, this country known as The United States of America and its Union as amended therein, have many discoverers and natives, domestic or not domestic to the Lands of America's. These with standing or not, in controversy could be applied to one or the other to practically every Native or Non-Native, where years past these issues when thought remedied, solved and monetized in settlements, mostly not to ever get a remedy. It is complicated with religions in claims of Global character, crossing into Lands of Native boundaries or Non-Native peoples, same issues in this current time-line of 2017 with Globalism and Peoples trying to control property and other Peoples.

These Peoples of America in the Jurisdiction of this Government shall be given consideration along with us all if born onto this Land else are Foreign American's subject to Immigration under Law, to have their representation heard, under the same standing as any other. To carry on into the future requires freedom, self-maintained by those free, and the ability as a group of People to perpetuate relationships respective to one another. In retrospect, do not make the People of this Government be your mother.

As these Lands of America become smaller and Peoples become larger, and the World seems to be smaller, it is not understood to be any better, a way for People to live together except to make negotiation for those things of adversarial or controversy. No Lawyer or Attorney can speak any better for you than yourself. There is no need for so called privileges of a Monarch. Those are for those whom want to be subject to anothers slavery.

Article XVII

Finance, Currency and Counterfeit Property

As amended new herein, this country known as The United States of America and its Union as amended therein, has currently restored and adopted its legal tender as The Continental Dollar. When backed by Gold and Silver, it shall mean only to be replaced by a form as a substitute replacement because a controversy has, if such where to be unsettled, caused a harm under this Government's currency, and placed all into a harmful maxim, because it was used in good faith. The National assembly shall make this in Law and definition if and when such where placed to affect currency backing.

These currency's establish a usable property of The United States of America and its Union. The Law under this National assembly, to repel those whom copy, change denomination, or counterfeit this Government's currencies, this enforcement is not exclusive of any named type. The National assembly shall set forth such remedy of those foreign or domestic, by punishment in jail or other pain in a penalty as needed to protect assets of The United States of America and its Union, by theft or by espionage or by spies engaging in a silent war or by subversive activities under groups with harmful intent.

Article XVIII

The parallel with the United States Inc, gives rise to future situations where this Government may obtain its people, and may need enforcement due to terrorism or civil structure for quasi Military controversies.

The author herein has provided many years of Common Law with its history and important lawful ideologies for these courts and those customary methods and use of a Long history by William "Bill" Thornton, as a Common Law Master practiced in courts under the State of California, with much thanks to his personal efforts, and here that is commended. This is to initiate a process to establish these concepts, whereby Human Rights Tribunals can not handle all those things needed by a court.
