INTERNATIONAL ORDER

File / Reference # RH-20180523-82V8-99E5-9C5A-DR39ZE501723

The Government of The United States of America
The United States of America: NAC: 70PHZ P5FJ2
The Government of The United States of America
RR 1, General Post Office #1
NAC: 850H2 MR7C8

Grounds for the International Order:

The grounds for this international order include but are not limited to the current addressing system within the United States does not reflect the correct address. The addresses of all public buildings do not include the term "United States" thereby claiming a jurisdiction but not recognizing the United States as the country name by all of the fifty States of the Union within The United States of America.

The current addressing format as established by the Bank of New York Mellon within its software within the United States Postal Service distribution centers does not include the United States within those address formats:

Example:
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Registered with the **IP Rights Office**
Copyright Registration Service Number: 4056990103

Wherein it should read:

The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500
District of Columbia
The United States of America

Further, if the United States within itself was a country, the address format would read:

The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500
District of Columbia
United States

The international addressing format around the world wherein the country name is required within the address:

Read about U.S. Postal Service (USPS) address standards for international mail. When addressing international mail, use these USPS recommendations for destination and return addresses.

Destination address:

- Use all capital letters.
- Type or legibly write the address in English.
- Use no more than 5 lines, including:
 1. Addressee's name
 2. Street address or P.O. box number
 3. City or town, principal subdivision such as province, state, or county, and postal code. In some countries, the postal code may precede the city or town.
 4. Country name

Samples:

MS JOYCE BROWNING 2045 ROYAL ROAD LONDON W1P 6HQ ENGLAND	MS JOYCE BROWNING 2045 ROYAL ROAD 06570 ST PAUL FRANCE
---	---

Source: <https://blink.ucsd.edu/facilities/services/mail/international/addressing/>

Further, to use the State as a banker code rather than a true name of the States of the Union would promote the narrative that the Bank of New York Mellon own the States of the Union which is a violation of the law of nations and the Universal Declaration of Human Rights wherein a perceived debt would include but not limited to losing all human rights in existence under some kind of judgment and or private judicial decision made by some quasi banker private court and never directly published.

For with the current addressing format established by the Bank of New York Mellon is inconsistent with the International Order, now therefore:

INTERNATIONAL ORDER

By the authority granted this office by the National assembly for the Government of The United States of America, it is hereby ordered that the addressing format is changed within the distribution centers of all private corporations software that scans address formats and arbitrarily decides as to whether the envelope is addressed correctly shall be re-programmed to reflect the following:

1. Addressee's name
2. Street address or P.O. box number
3. City or town, principal subdivision such as province, state, or county, and postal code. In some countries, the postal code may precede the city or town.
4. Country name

Example:

John Doe

123 Main Street

Anytown, 00000 or NAC Code:00000 00000

State of _____

The United States of America

So ordered and signed on this 64th day in the year of Yahweh, 6020 (May 22, 2018)

office of the General Post Master Council for the Government of The United States of America

Kevin Lloyd Lakes
